

BUILDING VALUE

History & Experience

Versico was formed in 1993 through the acquisition of a major single-ply roofing manufacturer. Now, more than twenty years later, Versico has positioned itself as one of the top single-ply roofing system suppliers in the U.S. by focusing its efforts on quality products and exceptional service.

Versico has been instrumental in the development of today's leading technologies in the commercial roofing industry. With decades of experience in the single-ply roofing field.

Versico is able to offer you time-tested, proven solutions for your roofing needs. Versico membranes and roofing systems are rigorously evaluated and tested to ensure that you receive an unmatched roof that will provide years of protection for your valuable assets.

Convenience

Versico's network of over 400 distribution locations throughout the continental United States means that no matter where your project is located, you can count on timely deliveries and easy access to all the materials you want and need.

In addition to the expansive network of distributors, Versico has also hand selected authorized contractors throughout the country.

Each contractor is approved based on their commitment to quality installations and their dedication to customer service. Each of the more than 2,500 authorized Versico contractors must maintain status by meeting Versico's requirements for providing top-quality craftsmanship and excellent service to each and every customer.

Sustainable

Reducing energy consumption and costs is not only good for your bottom line, it is also becoming a code requirement in many places. A handful of cities have mandated the use of reflective roofing materials and have increased code requirements for insulation. Versico helps you to meet these requirements and improve your bottom line at the same time by offering innovative, proven solutions for your building.

Versico offers a broad array of traditional Roof Garden Systems that incorporate a variety of waterproofing options with a full line of accessories to provide a high performance system. This innovative offering helps to increase your energy efficiency, extend your roof life, and provide added aesthetic value. It also includes a range of membranes that carry up to a 20-year warranty, engineered growth media and vegetation options.

Versico is able to meet all of your cool roof needs with any of our energy-efficient single-ply roofing systems including EPDM, TPO, PVC and roof gardens.

Service & Support

A high-performing roof system goes beyond having a quality product. The right design is critical to ensure years of strong performance. Studies show a properly designed system can reduce a roof's lifecycle costs by half. Versico's design support team provides contractors, architects and building owners with technical knowledge and assistance in the specification of even the most complicated roof system design. Utilizing TrueRoof Cost, specialized lifecycle analysis software, our experts can provide you with the most dependable, cost-effective roofing solution available.

From start-up assistance to completion inspections, hands-on support is provided by an extensive network of field service representatives strategically located across the country. Versico's customer service team works to ensure that materials are shipped accurately and on time, allowing your project to move forward smoothly and efficiently.
